48 Bolt Cripples New Party, Ticket Is Put in 1920 Field

Farmer-Labor Union Has Platform and Candidates Ready for Coming Election; Christensen Is Choice for President and Hayes for Second Place.

Chicago, July 15.—The Farmer-Labor party, born of a fusion of numerous political groups, has a platform and has its new candidates in the field for the coming election. Its work was completed at 4 o'clock this morning when its convention, after an all day and night session chose Parley Parker Christensen, Salt Lake City attorney, and Max S. Hayes, Cleveland labor leader, as its presidential and vice presidential nominees, respectively.

But the strength of the new movement remains to be seen. The first test came today when a group of dissatisfied delegates formerly allied with the committee of 48 met and considered placing their own ticket in the field under the 48 banner.

Not all of the 48 delegates withdrew from the fusion convention last night when some 100 or more returned to their own convention. Those who remained were rewarded by seeing Christensen, the chairman of their convention, selected to lead the fusion party while the labor leaders contented themselves with the election of their national chairman, Hayes, to second place.

Ninety-eight leaders declined to say if this concession would have on their course when they met today. It was apparent that Christensen's nomination served well to strongly the elements remaining in the convention. One point, in fact, was made that the discredited 48ers would confine their activities today to organizing anew for a purely educational purpose.

Hopkins Denies Bolt.
J. A. M. Hopkins, national chairman of the 48ers addressed the farmer-labor meeting after reports began to spread that a bolt had been demanded upon him and his friends and denied that such an agreement had been reached. He avoided saying that none was in contemplation and, in statement issued to the Milwaukee Journal, the dominant labor group for the handling of the amalgamation and declared a great opportunity had been missed.

Not All Is Harmony.
All was harmony in the fusion convention during the time the platform and ticket were under discussion. Hostile debate developed over the choice of a name for the new born political group. The 48ers carried their unsuccessful committee fight against the socialist doctrines of the radicals and led in the floor. But in the same tactics they used throughout the platform discussion they attempted to force their wishes across through the use of Senator La Follette's name.

Embargo Stampede Occurs.
An embryo stampede of a 45 minute democratic bolt resulted for Wisconsin Senator by injection of his issue. But the well laid plans were nullified by labor leaders who blocked demands for an immediate consideration of a platform to be satisfactory to La Follette and which it was claimed had been concealed by the 48ers as "intrigue." The 48ers got their platform before the 48ers and throughout the period did not initial operating expenses and at no time did the earnings anywhere near pay interest on the bonded obligations of the company.

Prices Start Low
In Resumed Trading
On Wheat Futures
(Associated Press)

Chicago, July 15.—Prices started lower than expected today for future deliveries in wheat, the first of his prices quoted in nearly three years. December wheat was quoted at \$2.72 @ 2.6. Estimates by traders beforehand were that the initial figures would be about \$2.80.

CONSTABULARY
CAUGHT IN AMBUSH.
(Associated Press)

Chicago, July 15.—A patrol of five constables and a sergeant was ambushed last night in the Adare district of county Limerick. One constable was wounded and died shortly afterward, but the others escaped uninjured, according to an official report.

Eager watching by the grain trade throughout the world attended the resumption today of pre-war methods of dealing in wheat. The market, or the first time since August 15, 1917, when the United States government assumed control over business in wheat, operations were permitted today that went beyond mere limited quantities on a hard to mouth basis. Instead of the usual selling of wheat, it was broadened out so as to include future as well as immediate delivery with no restriction by the regulating powers which the members of the board of trade had voted to the officials of the institution.

J. F. Gates, president of the board of trade said speculative trading would be encouraged only in the extent necessary to furnish a stabilizing influence. He added that not until transportation conditions became more normal could the market for future delivery be expected to afford sufficient protection of rights for handlers and dealers to which they had been accustomed.

Prior to today, the last recorded transactions here in future delivery of wheat were for September, 1917, at \$2.11 a bushel. Since that date wheat for immediate delivery has sold at a price as high as \$3.95 and as low as \$2.18, the latter being the government's initial guaranteed price, which was subsequently advanced to \$2.26. Yesterday a car of new wheat, grading as No. 4, brought \$1.97 a bushel.

NONPARTISAN LEAGUE
NOT TO MERGE
WITH ANY PARTY
(Associated Press)

St. Paul, July 15.—Oliver S. Morris, St. Paul, head of the Non-Partisan League publications and authorized spokesman of the league, declared that there is no one at Chicago participating in the third party convention who is not a member of the Non-Partisan League. He has authority to speak for the league. Mr. Morris further declared the Non-Partisan League would not merge, amalgamate, or affiliate with any political party.

NO FARE INCREASE UNTIL BETTER CAR SERVICE IS GIVEN

**NEW TROLLEYS MUST BE
PUT IN SERVICE FIRST
IN AGREEMENT.**

NEW SCHEDULE

**Company Proposes To Operate
12-Minute Service—Is Los-
ing Money Now.**

In the event that the railroad commission decides upon higher fares for the Janesville Traction company, following the hearing held at Madison yesterday, the company will not go into effect until after the new trolleys ordered for the city have been placed into operation. This was definitely stated as agreeable to all concerned.

At the hearing, the city of Janesville took the position that although it is vitally interested in the service, it is more concerned in the producing of a better service.

The trolley service, the arrival of new cars, the transportation company, declared that it will institute a 12-minute service to take the place of the present 20-minute headway which becomes a 40-minute service when cars are taken off for repairs.

"Glad to Do Service." The city is opposed to any unreasonable raise in rates and will contend at all times against any charge in excess of a charge reasonable for the service furnished, stated Roger G. Washington, city attorney, today. "At the same time, we are more anxious for an increased and better service, and should a reasonable raise be absolutely necessary, it is felt that the citizens would be pleased to have an increased, more efficient and reliable service even though it should involve a slight raise in rates."

FINANCES PROBED.

The full financial condition of the company, including the earnings, was investigated at the hearing. The exhibits introduced one showed under oath that the company received gross earnings amounting to \$20,618, but the operating expenses and taxes, not including depreciation or interest on outstanding bonds, amounted to \$21,847.38, leaving an operating deficit of \$9,230.88. For the year 1918, the gross earnings were \$36,510, and the operating expenses and taxes, not including depreciation or interest, amounted to \$34,433.51, leaving a net operating revenue of \$1,685.59. For the year 1920, the first six months, the gross revenue ended at \$23,763.55 and the operating expense and provision for taxes amounted to \$23,648, leaving an operating deficit for six months of \$77.65.

It was also shown that the valuation of the company is approximately \$150,000, on which investment there was no return whatever to the company over the period in question; that the earnings of the company for the greater part of the period did not cover operating expenses and at no time did the earnings anywhere near pay interest on the bonded obligations of the company.

WINE AND BEER GIVEN SUPPORT IN PHILIPP PLATFORM

(Associated Press)

Madison, July 15.—Gilbert Seaman, Milwaukee, was nominated at the conference of the Philipp faction of the republican party of the state at the meeting late yesterday afternoon. Gov. Philipp who could have had the nomination for a list of his thumb, refused to accept it.

A platform, the chief plank of which called for a liberal construction of the 18th amendment, and is for

light wines and beers, was adopted.

CONSTABULARY CAUGHT IN AMBUSH.

Bullock, July 15.—A patrol of five constables and a sergeant was ambushed last night in the Adare district of county Limerick. One constable was wounded and died shortly afterward, but the others escaped uninjured, according to an official report.

**Four Trim Looking Military Planes Wait Signal to Start
Them on 9,000-Mile Flight to Nome and Return; Sixteen Stops are Scheduled on 45-day Expedition.**

Mineola, N. Y., July 15.—Four trim looking military airplanes were lined up on Mitchel Field here today waiting for the signal which was to start them on their 9,000 mile flight to Nome, Alaska, which is to start them on their 9,000 mile flight to Nome, Alaska, and return. The expedition organized for the purpose of establishing an aerial route to the northwest corner of the American continent for possible military use and conducting an aerial survey of the territory traversed, will take approximately 45 days. Each plane will carry an army pilot and mechanic or observer. Sixteen stops have been provided, the distance between stations ranging from 200 to 350 miles.

Shamrock Wins 1st Race; Resolute Suffers Accident

BULLETIN:

Sandy Hook, N. Y., July 15.—Shamrock IV, challenger for the America's cup, kept on for the finish in the first race of 1920 after Resolute withdrew, because of broken halyards. If the challenger does not herself withdraw and she finishes within the six hour time limit she will be today's victor.

Resolute, defender of the America's cup, parted her throat halyards which support her mizzen sail while leading Shamrock by about a half a mile to the turning point.

Shamrock IV, won the first race of the 1920 regatta, sailing across the finish line at 4:25:30 unofficial time, as the Resolute had been withdrawn.

Sandy Hook, July 15.—Resolute led Shamrock across the starting line in the first America's cup race of 1920.

The yachts moved at fair speed for positions behind the starting line. The two sloops stood in shore on the port tack with Resolute in windward. They came about and stood on the line. At 11:55 the warning signal was blown and a white ball hoisted.

Resolute Leads

The Resolute crossed at 12:01:50 and Shamrock at 12:02:40 unofficial time.

Sandy Hook, N. Y., July 15.—Resolute led Shamrock across the starting line today in the first America's cup race of 1920.

The official starting time, given from the race committee boat were: Resolute 12:00:40; Shamrock, 12:01:38.

It also was announced officially that the time allowance would be six minutes and 40 seconds, due to a change in measuring the Shamrock sails.

Shamrock's Poor Start

From the shore it was apparent that the Shamrock had made a poor start, not crossing the line until after the handicap whistle had blown at 12:02 o'clock. The yachts crossed the line on the starboard tack. At 1:05 p. m. with both yachts standing off more on a starboard tack, Shamrock was more than half a mile in the lead and slightly to windward. The wind breezed up again to six knots at this point.

OFFICIALS PROBE
ATTEMPT TO BURN
BARN NEAR HERE

L. M. Shuler, deputy fire marshal arrived from Milwaukee last night from Milwaukee to investigate the origin and cause of the crudely constructed internal machine that was found Tuesday evening by young Robert Thompson as he was pitching hay in the loft of the James R. Thompson barn, six miles north of Janesville.

The boy himself, Shuler said, "is very good," he added. "The soldering was done well, he said.

Demands domestic control of industries, laying down the right of labor for an increasing share in the responsibilities and management of industry."

4—Calls for public ownership of all public utilities and natural resources, immediate repeal of the Duluth-Cummins railroad law.

—Demands favorable laws for farmers, establishment of public markets, extension of federal farm loan system, organization of state and national service corps, grants to farms and farmers already in land and promotion of farmers' benefit organizations which "actually will help."

—Advocates government economy.

—Urges reduction of the cost of living, stabilization of currency, federal control of meat packing industry and enforcement of present laws against profiteers, "especially the big ones."

—Favors "justice to soldiers of the world war as a matter of right and not of charity," according to a resolution of a group "sufficient to make their war pay less than their peace earnings."

—Labor's bill of rights which includes declarations for:

The unqualified right of all workers, including government workers, to strike.

—Freedom from compulsory arbitration.

Maximum standard eight-hour day and 44-hour week.

Old age and unemployment pensions and workers' compensation to insure accident and disease.

Abolition of employment of children under 16 years of age, complete and effective protection of women in industry with equal pay for equal work, abolition of private employment detective agencies used against strikers, and exclusion from interstate commerce of convict labor products.

—Establishment of railroads urged that orders be issued for an embargo against all shipments not consigned to a specific port, saying this would stop the shipment of coal which they say is the cause of the shortage.

—Mine representatives however, told the commission that a shortage of cars was the chief cause of the lack of coal in various cities in the state.

J. F. Gates, president of the board of trade said speculative trading would be encouraged only in the extent necessary to furnish a stabilizing influence. He added that not until transportation conditions became more normal could the market for future delivery be expected to afford sufficient protection of rights for handlers and dealers to which they had been accustomed.

**Campaign Fund Hearings
To Be Resumed Aug. 10**

St. Louis, Mo., July 15.—The senate committee investigating campaign expenditures of presidential candidates will resume its hearings here about August 10, it was announced today by Miss Mary Semple Scott, secretary of the women's committee.

The committee, to reduce the high cost of advertising, is but a fraction compared with the cost of CO-OP advertising.

What is costing you, per day, to be out of work, to be without a tenant for your house, apartment, furnished room, etc., to be operating a grocery store or taking without other things than a classified ad could bring you? Would the expense for a classified ad be greater than the expense incurred

HOLT URGES BETTER COUNTRY SCHOOLS

New Head of Janesville Educational System Addresses County School Men.

"Every boy and every girl in Rock county," declared E. O. Holt, superintendent of the city schools of Janesville, in his address on "A Good Education for a Country Child." "has an inherent right to just as good an education as can be obtained in the schools in large cities."

"A man or country teacher who is well prepared and well paid, and I want the proper environment for her," he continued.

That the rural school is the best kind of place for a boy and girl, if the school is modern and efficient, was insisted upon by Mr. Holt, as the rural school can foster the best in community life, school spirit, patriotism, and loyalty.

Consolidation is favored.

Consolidation of rural schools, transportation of children to and from school, and the kind of education they should be furnished to a country child were other subjects discussed at the afternoon session of the annual district school board convention and teachers' institutes held at the high school Wednesday.

"School District 'Facts'" were given by O. C. Antisdell, county superintendent, and various matters of business were taken up after the close of the community singing. The need for the prompt return of census blanks properly filled out and correct reports from the heads of the district school boards was strongly emphasized by Mr. Antisdell.

Schools Old-Fashioned.

"In many cases we are using a school that belongs to a bygone day, the days of our present day conditions," said S. M. Thomas, state inspector of graded schools, in his address on "Consolidation and Trans-

portation." Mr. Thomas spoke of the efficiency of the consolidated schools in Iowa, Minnesota, and Indiana, giving a statistics example. In the manner in which Iowa has eliminated 2,800 one-room schoolhouses since 1912, substituting the consolidated schools. Although in 1912 Iowa had been consolidated schools, this year sees about 100 new schools. The main reason by Iowa and Minnesota are willing, explained Mr. Thomas, to spend so much money on the consolidated schools, is that the teachers feel that it is a worthwhile project for increased efficiency.

"Northern Wisconsin is spending more money," added Mr. Thomas, "than southern Wisconsin is on schools."

Advantages of consolidation of schools are many, the chief ones being the division of work between teachers, enabling each teacher to teach the grades for which she is best fitted; the division of classes between teachers, giving each teacher more time for preparation, and more time for recitation work; the providing of proper junior and senior for the school; and the reduction of equipment, where one set of equipment is made to serve for one school, whereas several sets are necessary for schools that are not consolidated, he pointed out.

Cities Many Advantages.

"The power to meet a given situation and handle it successfully is what we want to teach, instead of depending on memory work," declared Mr. Thomas, as he spoke of the need for providing the right sort of education for the country child. He emphasized the fact that schools, especially country high schools, should not devote their time to preparing the students for institutions of higher learning, to which few will probably

go, but should fit them for the life into which they will step after graduation.

We've paid too much attention in the past to the three 'P's,' he continued, "and in the future we want to spend more time on manual training, domestic science, and agriculture."

Transportation Is Factor.

Transportation as the big factor in making rural schools really efficient being absolutely necessary if the rural school is to be all things to every child is going to be an established condition of the future, Mr. Thomas assured his audience. To prove the efficiency of one consolidated school in the new part of the state which he visited one winter when the thermometer had dropped to 28 degrees below zero, and there was a foot of snow on the ground. In spite of these conditions, 111 children out of the total enrollment of 127 were present at school that day, being transported to the school.

Transportation is required by law if the child lives out of the two-mile zone, and of course, when schools are consolidated, a great many children have to be transported.

Is Bound to Come.

"Consolidation is bound to come; it is not visionary," said the speaker, as he outlined the two methods by which consolidation may be brought about:

A certain percent of the voters in a school district petition the school board to call a meeting, such a meeting will have to be called to discuss the matter of consolidation, as this method of proceeding is more complicated than to let some committee work of petitioning the town board. If, after the town board has been petitioned, it does not act within 15 days, then the county committee can be appealed to, and in case where no satisfaction can be obtained, the matter can be carried up to the state superintendent of schools.

The state superintendent of schools, according to Mr. Thomas in his concluding remarks, is this: "Does it fit the immediate needs of the community?"

ITALIAN KILLED BY BOSCHIO, JURY FINDS

Charge of Murder to Be Made Against Leader in Beloit Riot Crime.

The jury called by Coroner Lynn A. White, the Italian feudal killing Friday afternoon at Beloit this morning, heard testimony of several witnesses and found "from the evidence that Frank Farace came to his death on the 9th of July as a result of stab wounds and skull fracture inflicted by Charles Boscio and others."

A lot of interesting testimony was forthcoming through the intervention of Guy B. Reno, representing the Winnebago County, Ill., district attorney's office, who was in Beloit in connection with Coroner Whaley and Rock county's prosecuting attorney, Stanley G. Dunwiddie, received the assurance that the Wisconsin authorities would not delve too deeply into the matter to the extent of sifters to the bottom and clean up the Mafia operating in Northern Illinois.

Detective Is Interrupted

When Detective Dan Torrist, of Beloit took the stand and testified that he was granted a stay of trial, Mr. Dunwiddie, who is as he reached the dying Farace's side, who spoke to him in Italian and briefly summed up the attack and its cause, the witness was suddenly cut short by hurried whispered conversations between Reno and his co-defender.

The witness kept on the stand and the questioning continued he would have told much more regarding the Black Hand plot to do away with Farace.

His testimony, though sufficient to establish sufficient evidence to fix the blame for the murder, the inquest was then closed. Previously Sam "Jones" Gilman, colored, 469 Race street, Beloit, told of hearing the man's cries for help and of his finding him and helping to deposit him in the police, Sgt. Frank Lamprecht, of the Beloit police department testified as to his being called to the scene and Drs. Keithley and Lessson told of dressing the wounds of the injured man and conducting the postmortem. Farace was buried 41 times. A piece of iron broken by a stiletto thrust, splintered a rib. This punctured his right lung. He also had a bad fracture of the skull above the right ear. Any was sufficient to cause his death.

Mr. Torrist, following the inquest, stated that a warrant charging murder would be issued against Boscio today. The official said that the case would come before the grand jury next month and that trial would be possible within the week.

It was decided in the court that would impose capital punishment. Judge Smith is against it, but I believe that any jury we pick will be strong for the noose for Boscio, because of the heinousness of his crime.

Three Italian boys approached me last night and asked for tickets to the hanging," interjected Detective Torrist who was one of the group. All Beloit Italians want to see Boscio swing."

Who Discovered America?

By FREDERIC J. HASKIN
Chicago, Ill., July 15.—Dr. Sofus Larsen, historian of the University of Copenhagen and a great student of history, has made a remarkable discovery in his delvings among ancient Portuguese and Danish archives. He has discovered that John Scolvo, a Danish sea captain, landed upon the shores of America in 1476, sixteen years before Columbus. Mr. J. Christian Bay, head of the medical reference section of the Cramer library here, who has just translated the results of Dr. Larsen's research work into English, states that the maps, documents and journals which Dr. Larsen has unearthed are conclusive evidence that John Scolvo's voyage is the first recorded discovery of the western continent.

It is generally believed that various Scandinavian navigators had seen North America or some of the islands near it long before the voyage of Columbus, but this has never been proved. Dr. Larsen claims to have proof positive of Scolvo's voyage.

If this is so, and anyone who hears the story from the scholarly Mr. Bay finds it hard to doubt it, it makes a pretty state of affairs ever here. To be perfectly logical we ought to change the District of Columbia to the District of Scolvo, we ought to have a Scolvois, and as far as some of the national anthems *** * However, people are never perfectly logical, so this momentous discovery, so exciting to the savorists, will probably not make the slightest stir among us. We have worked up a lot of quite justified, sentimental fondness for Columbus, and it would be hard for anyone to get our sympathy for even our neutral hearing for any Scolvo-Columbus controversy. We feel about Columbus as the man in the Shakespeare-Bacon controversy felt about the well-known playwright when he said, "Well, if Shakespeare didn't write his plays, they were written by another man named Shakespear."

Nevertheless it is fascinating to muse upon old Scolvo's voyage suddenly coming to light after more than five hundred years. And it is especially fascinating to sit in Mr. Bay's small study among ancient tomes and exquisite bits of illuminated parchment, and hear his mild-voiced, quickly-worded story of the Danish pilot.

The Single Taxers, running on one track and a monorail at that, have named a ticket and quit.

Gov. Ferguson, of Texas, with his American party consisting of himself and his secretary, has gone home to run a campaign for the presidency from the scholarly hills of Crockett county. Amos Einchot, poor old Amos, is sitting alone like Marius in ruins of Carthage, rubbing the skull of a dead hope.

When it is said that the platform was so bad that Robert La Follette, father of more slithering ideas as to how the human race can lift itself over the fence with its bootstraps than any other person now in captivity, could not stand for it, it may be appreciated what sort of a hedge-podge that document was.

Henry Ford deserted this second—Oscar II. William Randolph Hearst, putative father, took one look at his che-lead flag. Even an attempt to unite all of these gentlemen under one banner with a nut, as a symbol would have failed. So ended the lesson. After all, the American people have not lost that good horse sense inculcated by their fathers, nor have they forgotten the early principles written with blood upon the nation's foundations.

DROWNED IN A BARREL OF BEER.
That conference of republicans at Madison, Wednesday, adopted a plank in a platform which reads as follows:

The liquor law is now an additional question and any change demanded by the people must be made by congress. We believe, however, that the Volstead act should be so amended as to permit the manufacture and sale of beverages that are not in fact intoxicating within the meaning of the eighteenth amendment, to the end that personal liberties be not unnecessarily interfered with.

That conference was called by the governor and his friends. While there was no doubt that the created would have endorsed its creator for a fourth or a tenth term or anything else, it was content to put on the governor's beer program and let it rest.

On this platform, which does not harmonize with the republican national platform, the republicans at that conference named Dr. Gilbert Seaman, of Milwaukee, as a candidate of the section hereafter to be known as the beer faction of the republican party in Wisconsin.

It is to be deeply regretted that the conference allowed itself to be led into this step. Naturally, being backed by the governor, it was more or less obliged to do as the governor desired. It will, however, compel Senator Wilcox, Mr. Hull, Mr. Dithmar, Mr. Tittermore, and the late Wilson in the state, Mr. Elaine, now a candidate for governor with the brand of La Follette, to come out in the open and say exactly where they stand on this issue. The republican national convention at Chicago refused to bow to the pressure of the beer and wine interests. The democratic party refused to oppose the Volstead law. It remained for a faction of the republicans of Wisconsin to go over body, soul and breeches, to the breweries of the state and the entrenched forces backing the liquor business:

"Philipp est mort! Vive le Beer!"

TRYING OUT THE FACTS AS TO THE WAR.

The more one reads of the contracts made by the administration during the war and of the material that never reached the firing lines or even went across, the more we feel under tremendous obligation to the soldier who did the fighting. "We won't the war," says the platform on which Gov. Cox is running.

That platform accuses the republicans of attempting to take away the glory of the victory. Not at all. The republicans are perfectly willing that the democratic administration should have all the glory that comes from war operation. One of these rays of glory was the purchase of saddles and nose bags by the million for a few thousand horses mentioned in Monday's Gazette. Another is the work of the administration in its origin of waste in the artillery department.

An examination of the waste and extravagance of any department tells the same story. The Ordinance department spent \$3,991,459,570.48, or as much as it cost to finance the whole Civil war of '61-'65. No one would object if we had received anything for it.

There were 53 contracts for 37 millimeter shells, on which was expended \$9,134,582; 143 contracts for 3-inch shells, \$4,841,844; 305 contracts for 6-inch shells, \$24,189,076; 617 contracts for 155-millimeter shells, \$264,958,387. There were 789 other contracts for different sized shells totaling 21,806, and of all those mentioned in this whole list not one shell ever aided for a second in winning the war.

With 111 contracts aggregating \$475,828,342 for guns, howitzers, gun carriages and other accessories of artillery, a total of 183 anti-aircraft and other small guns got across, according to the de-

BROTHERHOOD.
Under the toiler's grimy shirt,
Under the sweat and the grease and dirt,
Under the rough outside you view,
Is a man who thinks and feels as you.

GO TALK WITH HIM.
Sit down with him by a running stream,
Away from the things that are hissing steam,
From his bench,
His hammer and wrench,
And the grind of need.

AND THE SORDID DEED;
As he bears his mind
In the things which count when this life is
He's as tender and big and as good as you.

BE FAIR WITH HIM,
And share with him
An hour of peace in a restful place,
Brother brother and face to face,
And hell whisper low
Of the long ago.

OF A LOVED ONE DEAD;
And the tears he shed:
And you'll come to see,
That in summer time
The love is hewn by the self-same rod
And turns for help to the self-same God.

YOU HOPE AS HE,
You dream of splendors, and so does he,
His children must be as you'd have yours be,
He shows you his past above /
He laughs and sings
For the same things;

WHEN HE'S UNDERSTOOD;
He is mostly good,
Thoughtful of others and kind and true,
Brother, devoted—and much like you.

UNDER THE TOILER'S GRIMY SHIRT;
Under the sweat and the grease and dirt,
Under the rough outside you view,
Is a man who thinks and feels as you.

EFFICIENCY HINTS FOR BUSINESS MEN.

Never hire a young man who is a gang leader, a gunman and an expert safecracker, and in the capacity of cashier of your establishment. If you are looking for a walkie or a clerk for your general store to sell ladies' goods for instance, do not hire one who smokes a corn cob pipe continually while on duty.

Never hire a young man who says: "I seen him when he done it" if you are engaging him for the editorship of a magazine.

When employing a young man to act as messenger to carry your bonds to the bank, care should be taken not to hire one who is under indictment and out on bail for grand larceny, burglary or highway robbery.

Picnic Sports Program Has 15 Big Events for County

By George McManus.

JULY 28 TO SEE EVERYBODY TAKE PART IN EVENTS

Something Planned for Men,
Women, Boys and Girls
With Prizes in Each.

BY FRANK SINCLAIR

No picnic is ever successful unless some kind of a program of sports enters into the festivities. And the more varied the list of events the greater the fun.

Janesville is giving Rock county a big community outing on the 28th of this month. It's going to be held at Riverside park on the Rock river with everything so crammed full of something to do that no one can afford to miss it.

Program Accepted.

Last night the committee presenting their tentative program to the steering committee of the Chamber of Commerce which has the picnic in mind, and had it heartily approved. There are 15 big events on the list providing something for everybody, men, women, boys and girls. Prizes to be announced later will be given for each one.

These sports will be held in the afternoon. The ground is being put into the best shape possible and arrangements are being made for water competition.

Big Fields.

Expectations are that business houses here and throughout the country and various fraternal organizations will jump into the sports idea and enter representatives under their name. This is the way the committee would like to see it done to create a higher interest. Signed individuals are invited to get into the spirit of the occasion. The American Legion of Janesville is enthusiastic over the proposition and promises to enter men in practically every event scheduled.

Here's the program:

AND

The American Legion of Janesville challenges any team in the county to a baseball game. Because of the fact that there is no regular diamond on the park, this will be played on an indoor baseball. Answers to the challenge should be sent to the sporting editor of the Gazette. Get busy and get your bunch together at once.

100 yard dash for all.

Relays for teams of four men, the distances to be announced later. The Janesville American Legion already has promised to enter a team. Here's a chance for other legion posts in the county and fraternal organizations to copy the honors.

Strength.

Tug o' war for older men. Three of these will be held. The East side of Janesville will be pitted against the West Side. Edgerton will enter a team against Evansville. Janesville city will tackle the "Town" of Janesville in a legged race for boys. This number will be open to all youths up to 18 years of age.

75 yard dash for girls, open to all girls up to 18 years of age.

Nail driving contest for women. This will be held on a raised platform. Each woman entrant will be given a hammer and a certain number of nails. The one to finish driving all her nails into the wood first will be pronounced winner.

Walls.

Finley diving contest, free for all.

Underwater swim, free for all.

Long distance race for men only.

The course will be across the river and back, the swimmers go around a boat at the opposite side.

Women.

Short distance race for girls and women. This will be to a point half way across the river and back.

Cane race with two paddlers in the canoe. The distance will be a mile, the course to be half mile up the river and back. Any style stroke will be permitted.

Row boat race, one person. Distance to be a mile, half mile up the river and back.

The desire is to make these events such that everybody attending the picnic will be invited to enter any or all.

UPSETS FIGURE IN GOLF TOURNAMENT

Memphis, July 15.—Two rounds of matches for the amateur championship of the Western Golf Association on Wednesday furnished several upsets and some true to form playing and left to fight it out for the title, five western and three southeastern players.

YACHTS START ON S. W. BY SOUTH COURSE IN RACE

and west breezes are predicted by the weather bureau for tomorrow's race.

RUTH GATHERS NO. 28; GLOOM IN CHICAGO

Sandy Hook, N. J., July 15.—A yacht armada gathered off the hook today for the first America's cup race in 17 years.

Nestling behind the great sandspit where the two shoals that are the pride of Britain and America—Shankrock IV, Chipping, with sleek green sides and glistening silver, dazzled in her coat of white.

A noon run by Rice with two on the bags in the fifth; and three triples and a walk in the eighth, served to beat the White Sox when the Senators won 6 to 4.

Coming from behind after Cleveland had beaten them, the Indians took both ends of a double.

Captain Burton planned to carry a smaller club topsail today and reduce the heavy handicap while Shankrock carried in along the Baseline a time of 40 minutes and one second in a 30-mile race.

This smaller topsail is expected to reduce Resolute's time allowance to 5 minutes and 45 seconds.

A ten knot breeze from the southwest and a smooth sea were the favorable conditions at 8 o'clock this morning for the first race.

At 11:30 a. m. the regatta committee hoisted the signal for a southwest by south course.
